Montgomery County Fairgrounds
Dayton, Ohio

March 17-21, 2015
VSC 27
Christopher Columbus Park
Tucson, AZ

News and Notes from the Editor:

I hope everyone enjoyed the Christmas holiday and would like to wish all the club members and families a Happy New Year.

Our annual club banquet will be held on Sunday, January 25th starting at 5:00 PM at the Spaghetti Warehouse located on Broad Street in downtown Columbus. Joe has reserved the upstairs loft above the lobby/bar area for this year's banquet. We hope to have another good turnout for our club members and their guests. If you plan on attending, please contact Joe at 614-457-2349 or e-mail me at markcandy@att.net so we get an idea of the number of prizes needed.

Our club officers for 2015 will remain the same as last year with Joe as President, Frank as Vice-President, Bob as Treasurer, Phil for Safety, and Mark the Secretary/Editor. If you have not sent in your 2015 dues to Bob, remember they are only \$10 (half price) for open membership.

In other news, old time stunt icon John Miske passed away recently at the age of 82. John was known as the father of old time stunt and a longtime member of the Garden State Circle Burners Club from New Jersey.

Joe has been busy working on some building projects this winter in his basement workshop. His classic Plano was damaged last summer at the flying field from a freak accident in the pit area involving a dust devil. Thankfully only slight cosmetic damage was the result of that mishap. Joe is also putting together another Arf Nobler and building some new tanks to try in his Guardian as the trimming continues for that plane.

Rob is looking to repair a couple of planes from hanger rash to add to his fleet for next year. I am in finish mode for the Stunt Machine, USA 2, and Tucker Special and hope to fly more next year as well as attend a few contests. Send me updates on your projects, and I'll include them in the next newsletter.

Hope to see everyone on January 25th.

Mark

Photos

This is my removable landing gear set up for the Stunt Machine currently under construction. It features a plate mounting system, which retains both landing gear halves with a plywood reinforced cover block.

The plane is now framed up, covered, and ready for fillets.

The Stunt Machine is powered by a Magnum 36 with an OS jet stream muffler. It has a Bob Hunt foam wing with molded leading edges.
