Meetings are held on the second Sunday of every month. Except August meeting.

FAA Decision on unregistering your model aircraft

Registration Deletion

The FAA is providing the following updated information regarding the Small UAS Registration and Marking interim final rule as a result of a [recent decision](#) (PDF) by the U.S. Court of Appeals for the District of Columbia Circuit regarding the small UAS registration program.

The court's decision invalidated the registration requirement as it applies to certain model aircraft that meet the definitional and operational requirements provided in section 336 of the [FAA Modernization and Reform Act](#) (PDF). Owners of model aircraft which are operated in compliance with section 336 are not required to register.

The FAA is working on a final rule with respect to registration and marking that will implement the court's decision. In the meantime, if you are an owner operating exclusively in compliance with section 336 and you wish to delete your registration and receive a refund of your registration fee, you may do so by accessing a [registration deletion and self-certification form](#) (PDF) and mailing it to the FAA at the address designated on the form.

You may access the required form at the following website, or give me a call and I'll print out a copy for you.

https://www.faa.gov/uas/getting_started/registration_deletion/media/FAA_Registration_Deletion_and_Refund_Form_Instructions_FINALv2.pdf

AMA Nats and member results

Congratulations go out to club members Joe and Adam Grubb and Mike Barbee for the great showing at the AMA Nats this year. Adam won Pilots choice Civilian and National Champion Open Scale flying the Douglas DC-3. Joe took 7th in Open Scale Advanced class flying his Clipped wing cub. Mike almost walked away with all the heavy medal with Pilots choice Military, first in Team Scale, and the 2017 Scale RC National Champion award with his King Air. Just to prove Mike is a mere mortal he also took 5th place in Fun Scale Open with his Stearman. I think Mike would agree the Fun Scale event was probably the most relaxing of the event for him.

Club Advisory

At the last meeting a discussion was held regarding placing liquid fueled aircraft (and said fuel) on the picnic tables. As it was, an "informal opinion" was taken of the members present and results revealed that under no circumstances should any fuel be on or near the tables. Also, any disassembly of said aircraft should only be done after the aircraft is clean of any fuel residue. On a lighter note, please refrain from spilling any electrons from lipo batteries as they are very difficult to see and cleanup.

Please note

Note that the Newsletter cover page has been updated. Since it was a matter of the original page being created in an obsolete program it was necessary to create the page from scratch. Please take the time to look it over and let me know of any errors, missing info, etc.

Also..

Take note of the change in the monthly meeting date due to the Rio Grande Scale meet. Meeting date and pylon race August 20th.

Adam with his first place win!!

Mike and Frank Noll with their Team Scale winning Beechcraft King Air

FORKS 2017 Yearly FunTime Agenda
